Nishit Patel
Frontend Developer

Ahmedabad, Gujarat, India, 380052 nishit.patel2243@gmail.com

+91 99780 19321

Experienced Frontend Developer with a passion for creating innovative and user-friendly websites. Proficient in front-end and back-end technologies, with a strong foundation in HTML, CSS, JavaScript, and React. Skilled in responsive design, optimizing website performance. Excellent problem-solving abilities and a proven track record of delivering high-quality projects on time and within budget. Strong communication skills and a collaborative team player dedicated to delivering exceptional digital solutions.

Professional Experience

Freelencer   Nov 2023 - Present
Frontend Developer

- Developed and maintained responsive web applications using React.js, Redux, and other modern front-end technologies
- Implemented UI/UX designs accurately and ensured seamless integration with back-end services and APIs
- Built reusable UI components that can be used across multiple projects with React.
- Created custom components, forms, and interfaces for user interactions in React.
- Monitored browser compatibility issues while coding layouts using HTML5, CSS3, JavaScript and jQuery along with other frameworks like Bootstrap , Tailwind css and Chakra UI when creating react apps.

Tops technologies pvt ltd   May 2023 - Nov 2023
Web Designer

- Designed visually appealing and user-friendly websites for various clients, ensuring a seamless and intuitive user experience
- Collaborated with stakeholders to understand project requirements and deliver design solutions that met their needs and expectations
- Proficient in HTML, CSS, and JavaScript to create responsive and mobile-friendly web designs
- Stayed current on industry trends and best practices to incorporate innovative design ideas into web projects

Schutz carbon electrodes privet limited   January 2018 - May 2023
VMC Programmer

- Developed and optimized programs for Vertical Machining Centers (VMCs) to enhance productivity and efficiency in the manufacturing process
- Collaborated with engineers and machinists to ensure accuracy and precision in VMC programming for the production of complex parts
- Implemented toolpath strategies and cutting parameters to maximize material removal rates and minimize cycle times on VMCs
- Conducted troubleshooting and debugging of VMC programs to identify and resolve issues, ensuring smooth operation of machines
- Utilized CAM software such as Mastercam or Fusion 360 to create detailed toolpaths and G-code programs for VMCs

Education

S.S.C in secondary May 2011 - March 2012

N.H.Shah Highschool at Bayad

Diploma in Mechanical Engineering (Dropout) May 2012 - March 2015

S.D.Patel polytechnic at Mahesana

Key Skills

- **HTML**
- **CSS**
- **JAVASCRIPT**
- **REACT**
- **REDUX**
- **TYPESCRIPT**
- **TAILWIND CSS**
- **CHAKRA UI**
- **GITHUB**

Certifications

Web Designer   Nov 2023
Tops Technologies pvt ltd

React Developer   Feb 2024

Projects

Google Gemini Clone

Developed a Google Gemini clone utilizing React.js and integrating seamlessly with the Gemini API. Implemented dynamic search functionality, delivering real-time search results and optimizing user experience. Designed a responsive user interface ensuring compatibility across various devices. Leveraged ReactJS state management capabilities to enhance performance and user interaction. Incorporated best practices in frontend development to create a robust and intuitive search engine application.

Technologies Used:

- ReactJS
- JavaScript
- HTML5/CSS3
- API

Youtube Clone

Designed and developed a YouTube clone utilizing React.js and integrating the YouTube API. Implemented features such as video search by category, playback, and user interaction functionalities. Achieved seamless integration with YouTube's data to deliver a responsive and engaging user experience.

Technologies Used:

- ReactJS
- JavaScript
- HTML5/CSS3
- API

Real-time Chat App

Developed a real-time chat application using React.js and Firebase, leveraging Firebase Realtime Database for instant messaging functionality. Implemented user authentication and secure data storage, ensuring seamless user experience. Applied Redux for state management and deployed application to vercel Hosting. Demonstrated proficiency in frontend development, real-time data synchronization, and collaborative application design.

Technologies Used:

- ReactJS
- JavaScript
- HTML5/CSS3
- Firebase
